Dr. Nammack, one of the surgeons had reported officially that Devery was suffering from congestion of the brain, and if other surgeons had been directed to make an immediate examination they might have been constrained by professional courtesy to sustain Dr. Nammack's diagnosis. STORY OF A VIOLENT DEATH CONTRADICTED

The sudden death of Mrs. Mabel H. Hastings in her home, at No. 487 Columbus-ave., early yesterday morning, was investigated later by the police and Coroner on account of a report that she had been agged and assaulted by robbers. She was the wife of William Hastings, a clerk in the office of the Commissioners of Taxes and Assessments. A report of her death yesterday said that she went out buy a pair of shoes on Thursday evening and did to buy a pair of snoes on Indrsday evening and did not return until nearly midnight. Then she told her husband that she had been poisoned, and later she said: "They tried to rob me, but they falled to get my money. I struck him over the head with my my money. I struck him over the head with my umbrella." She had her money in her purse and her umbrella was broken.

A few hours later the woman became so ill that her husband called a neighbor and sent for a physician. Dr. Arthur L. Root, of No. 114 West Eighty-first-st., was summoned, but when he arrived Mrs. Hastings was dead. He said later that he thought the woman had died from asthma. Later Captain Smith, of the West Sixty-eighth-st. station, made this statement:

"The story that Mrs. Hastings was drugged, assaulted and robbed is a pure fabrication. The woman had been intemperate for some years. She suffered from asthma, and had a weak heart. She went out yesterday evening to buy a pair of shoes. She returned home late at night under the influence of liquor, and died a few hours later. Her death was due to heart failure."

CHARLES W. BROOKE FINED FOR CONTEMPT Charles W. Brooke, the well-known lawyer, has been fined \$351.19 for contempt of court, and an order has been signed by Judge Freedman, of the Superior Court, directing that he be committed to jail until the fine is paid or he is otherwise discharged. The order of commitment was granted upon the application of Edward J. McGuire, a lawyer, representing St. John's College, Fordham which secured a judgment against Mr. Brooke on

May 13, 1878, for \$121 19, which has never been paid. Upon this judgment an execution was issued, but turned unsatisfied, and on November 23 last an order for the examination of the lawyer in suppleorder for the examination of the lawy in adjusted the mentary proceedings was obtained, in order to see whether he did not nave property sufficient to pay the judgment.

The examination was adjourned from time to time, and finally on June 8, when it was to have been proceeded with, Mr. Brooke did not appear, and his

An order was then secured requiring him to show cause why he should not be punished for contempt of court, for not obeying the order. This was also postponed on several occasions, and was down for hearing on Thursday, but Mr. Brooke again neglected to appear, with the result that he has now been adjudged in contempt.

TO LONG BRANCH BY SEA.

To Long Branch by sea is a very popular trip this season. The Iron Steamboat Company, who run their fine steamers to the new iron pier from Pier No. 1, North River, have been doing such a large business that it has been found necessary to add another boat on Sundays, which will leave New-York at 2 p. m.

NOTES FROM THE NAVY YARD.

It is settled that the big armored cruiser New-York is coming back to the Navy Yard, as instructions have been received to have a berth ready for her. He was at Southampton yesterday, but it was said at his office that he might be in the city for a short time to-day. His associate, Mr. Osborne, was said to have been busy examining the blotters of the Eldridge-st, station for the time that Captain Cross was in command there. It is only necessary to give a captain forty-eight hours' notice before placing him on trial before the Commissioners, and Captain Cross has not been reported to be El.

Captain Cross was in charge of the Eldridge-st, squad before Captain Devery took command there. It is said to have been the intention of Mr. Wellman to try Cross after Devery and use some of the same witnesses in both cases. Those witnesses testified that they had paid money for protection to the ward men under Cross before they were called upon to pay money to Devery and his ward man, Glennon. George W. The boy is unable to tell much about himself, except that his parents are dead and that he was living with some friends. At the institution the clerk said that a letter was received last week saying that the boy was to be sent here from Wisconsin. The letter was not signed, but the writer declared that another letter containing full particulars in regard to the boy would be sent two or three days later.

The boy says he was well cared for on the long fourney from Wisconsin.

COMPLAINT AGAINST THE MAN WHOM MONELLI HAS HAD LOCKED UP.

William C Mainland, who runs an unlicensed intelligence office at No. 136 Liberty-st., and who says he is the agent of an estate at Arsdale, N. Y., was brought before Justice Taintor, at the Harlem Po-lice Court yesterday, charged with conducting an illegal business. The complainant was Francesco Monelli, who lives at No. 336 East One-hundred-andfifteenth-st., but he is only one of nearly 200 Italian laborers who say that they each paid Mainland 35 on the understanding that they were to be employed for three years at \$1.50 a day at Arsdale.

The complainant, through an interpreter, testified that he had, with several other laborers, been induced to deposit \$55 with the defendant, in consideration of getting work. Mainland had put them off from time to time with various excuses, but had never procured for them the promised employment.

Mainland, who was represented by counsel, asserted that the money was paid on deposit for a plot of ground at Arsdale, which the complainant had contracted to purchase. Monelli denied this with many frantic gesticulations, Justice Taintor fined the defendant the maximum penalty of \$50 for running an intelligence office without a license. As he professed to be unable to pay the fine he was locked up. On the swindling charge Mainland was held for examination in \$50 ball. FOR THE IRVING PLACE THEATRE.

HEINRICH CONRIED RETURNS FROM EUROPE-HE TALKS OF HIS EXPERIENCES IN GER-MANY NEW OPERAS AND PLAYS.

Among the members of the German "Kartell-Verband," or "Association of German Actors and Managers," one of the most influential organizations of its kind on the Continent, is to be a prominent German-American manager, Heinrich Conried. Mr. Conried's name was proposed by Emit Possart at the last meeting of the association. This election practically adds New-York to the German theatre circuit. The motion of Mr. Possart, which was seconded by many others, is a personal and professional compliment to Mr. Con-

led, which he naturally deeply appreciates.

Mr. Conried was one of the passengers who arrived from Europe yesterday on board the Columbia. He had been abroad since May 19, and had visited London, Paris, Munich, Vienna and Carlsbad. He attended also the meeting of the German

yisited London, Paris, Munich, Vienna and Curisbad. He attended also the meeting of the German managers at Stuttgart.

"While at Stuttgart," said Mr. Conried yesterday to a Tribune reporter, "we discussed the condition of the German and Austrian stage. We all agreed that in the last ten years, with the exception of Fraulein Retty and one or two others, no promising actress had appeared on the German stage. This may seem strange, but it is true. This is one reason that makes it difficult for a foreign manager going to Germany to secure good actors and actresses. There are so few there now that the home managers pay them almost fabulous salaries. Why, when I read the contract which the manager of the Deutsches Theatre, in Berlin, signed with Fraulein Agnes Sorma, in order to secure her services, I said: "Dear friend, you are not the manager of this house—it is Miss Sorma. And it was practically true. Tet he was obliged to make her such flattering conditions because he could get no one to take her place."

It was only with the greatest difficulty and through the good graces of an aunt that Mr. Conried succeeded in getting his leading actress. Fraulein Lucle Freisinger, of the Deutsches Volks Theatre, of Vienna, where she has been extremely popular. She is a handsome woman of the Viennese type, speaks English fluently, and belongs to a wealthy family.

"I was in Berlin ten times, Vienna seven times, and Munich three times," added Mr. Conried, "in my search for members of my company. I saw 242 persons, and engaged seven in addition to the sheat of them. We then a dearly family.

Kokomo, Ind., Aug. 10.-The Kokomo Natural Gas and Oil Company has an elephant on its hands, Two weeks ago the company, thinking one of its a tremendous volume of water and gas gushed out from the 1,600-foot hole, driving the crew from their work. The torrent still continues, and has formed work. The torrent still continues, and has formed an artificial lake, the escaping gas coming through the body of water and keeping it boding and sectning like a caldron. Above the water is a volume of flame, swaying hither and thither with the wind, endangering the houses and ki.ling trees in the vicinity. Paint on houses two blocks away has been scaled off by the intense heat. The "runaway" well being in the central part of the city is a constant menace to property. The City Council has condemned the well as a dangerous nuisance, but the gas company is poweriess to bring it under control. Gas men declare that there is no way but to permit the well to exhaust itself, writch will take many years. All the water wells in this part of the town are going dry.

HEAVY HAILSTORM NEAR BOSTON.

Boston, Aug. 10.-The worst hallstorm in its history prevailed in the town of Revere yesterday afternoon. Hallstones fell which by actual measurement varied from three-fourths to one and onefourth inches in diameter. In an incredibly short time the streets and fields were as white as they ever are in winter. The hall fell five minutes before the rain came. Garden plants were stripped of their leaves, fruit was cut from the trees, and many window panes were broken. More than 1,000 panes of glass were smashed in one greenhouse. The teamsters had a hard time with their horses, and there were several runaways, but the only damage resulting was the death of one horse, which fell and broke his neck.

ANOTHER BIG TIN-PLATE PLANT.

Pittsburg, Aug. 10.-General Manager David B. Oliver Iron and Steel Company, is authority for the statement that the South Pif-teenth-st. plant of the company will soon be turned into one of the largest tin-plate works in the world. The capital mock, it is said, will be \$500,-000. It is expected that the plant will be in opera-tion in a few months,

WOMEN IN HOT WEATHER.

HOW THEY CAN KEEP COOL, COMFOR-TABLE AND HAPPY

A PROMINENT LADY TALKS UPON THE SUBJECT AND GIVES SOME VERY VALUABLE ADVICE-"THE NICETIES OF LIFE."

> "Talk about suffering from the heat! Why, even children do not suffer so much in hot weather as women do!"

> She was a prominent member of the Executive Committee of a Woman's Association that meets annually in New-York, and she spoke very carnestly.

> "No one but a woman can understand this: but all women know it. Every atom of woman's body is governed by a law of its own and hot weather seems to fight every one of these laws. A woman's sensitive nerves are but. raged by the heat. Her blood gets warmed by when she wants to be cool. The hundreds nice things which are necessary to her happing get solled, rumpled or unattractive in some way.
> All this frets, annoys and causes her unhapped.

All this frets, annoys and causes her unhappiness."

"I am willing to admit what you have said, ibut can you offer any suggestions?" asked one of the lady's companions.

"Yes. I can. I would have women avoid fretting and worrying; keep as cool as possible, and above all things be careful of what they eat and drink. The best food for any woman or man either for that matter during hot weather is something that nourishes and strengthens, with little or no effort on the part of the stomach. The only thing that will do this in every case is an artificially digested food, one that is digested before being taken into the mouth; and I know of but one pre-digested food, and that is paskola. I have used it carefully and find it all that is cialmed for it. It is as palatable as lemonade. It refreshes instantly. It nourishes in every case, and being already digested requires no effort on the part of the stomach in order to insure its assimilation. I know a great many ladies in the highest walks of life and who move in the best society who are using it every day and who never felt so well, looked so well, or were so well in their lives as they are now. I do not know anything about how it is artificially digested, although I understand it is because its nourishing starchy elements are mixed with vegetable digestive principles, but I do know that judging by its effects, it does more for women, and especially during hot weather, than anything that was ever before known."

The above enversation is just as it occurred in the rooms of the committee, and if it offers

that was ever before known."

The above conversation is just as it occurred in the rooms of the committee, and if it offers any suggestions to other ladies we shall be giad.

Any up-to-date druggist will furnish Paskola. If you want to know how it works, send for free pamphlet to the Pre-digested Fool Co., 29 Reads St., New-York.

A BOLD ATTEMPT TO GET THE DIAMONDS.

THE CLERKS IN A UNION SQUARE JEWELRY STORE CATCH A THIEF WALKING OFF WITH JEWELS WORTH \$5,000.

A during attempt was made late yesterlay afternoon to steal a tray of diamonds valued at \$5,000 from the jewelry store of John H. Johnston, No. II Union Square. The thief was caught before he got

out of the store.

About 3 o'clock an undersized, dark-complexioned man, about thirty-five years old, who carried a black vallee, sauntered into the store and looked around without attracting any special He walked toward the showcase in which the dismends were kept, and stood looking at the gens for a few minutes. When the salesmen were busy h another part of the store the daring stranger stole opened one of the slides, drew out the tray and shoved it in his value. He was stealing around from behind the showcase, still in a crucking position, when E. L. Allen, one of the clerks ne-ticed him and stepped between him and the door.

Th. audacious fellow was not the least disturbed. "It is a nice day," he remarked to the clerk. "Open that vallse and then we'll see whether it is or not," replied Mr. Allen.

is or not," replied Mr. Allen.

Davis calmly opened the valise and hands out the tray of diamonds to Mr. Allen. Policens James T. Kins, of the Broadway Squad, paref in fellow under arrest and took him to Policensi quarters. There he said he was William Pag. a clerk, thirty-six years old, and said he lived at the Everett House. He was locked up. The determined to not know him.

Mr. Johnston, who accompanied the policens and prisoner to the Central Office, said that the diamonds which the third had attempted to steal were worth \$5,000. There were a number of customers in the store at the time of the robbery, and a graddeal of excitement prevailed.

THE TRADE IN CHICAGO. Chicago, Aug. 10 (special).-Corn to-day was not active. The range was only 13c. The last grices end not much over the bottom. September opened at 55% sold between 56% and 55% and closed at 55%. Mr opened at 54c, sold between 54k and 55k and closed at opened at 54c, sold between 54k and 55k and closed at 54kc. There was a good shower here. That counted almost as much as if there had been a lot of rain in the corn belt. Dubuque reported rain there. Washington per-dicted clear weather for the West Saturday, and the total Signal Saraka and the total because they were afraid of the approaching Government report. Receipts were small-10d cars; the estimate for Saturday was 140 cars. The Government report in the

report. Receipts were small—104 cars, the estimate Saturday was 140 cars. The Government report in the afternoon gave the condition of corn as 69.1. Speculators had had the figures in advance for almost two days. The figures did not affect the curb, showing that they had been pretty thoroughly discounted. Wheat was more active than corn and rather more steady. It closed, however, a fractional decline from finiteday. September opened at 57, sold between 57 as 500, and closed at 500, the counter closed 35, over. The buying of wheat was by people who made more on corn and were inclined to bet their profits in the cheap grain. There was also a lot of covering by Pardride, possibly 1,000,000 bushels. Cables were firm. This helps the strong opening. The decline toward the close was in sympathy with corn. Receipts were 272 cars, the estimate for Saturday, 410. It was said that low grade wheat was for Saturday. He was said that low grade wheat was for Saturday. He had been sufficient to the continuation of the continua
